

THE POWER OF PARTNERSHIP

Corporate Overview

We are a diverse Information Technology consulting firm that is dedicated to providing outstanding technical services to our clients. DTS proudly employs the best people that work in the IT industry. We value the strong relationships and partnerships that we have built by providing solutions that enable our clients to be successful. DTS has pride in the impact that we have made on the consulting industry in our markets. We constantly strive to develop and maintain long-term relationships and ongoing partnerships with our clients. Our team achieves this by providing a solid framework of quality solutions and services.

The emphasis on technical excellence begins with our recruiting process. Every consultant is evaluated through a rigorous technical interviewing process and is hired as a full-time employee of the company - allowing us to build a team of dedicated IT professionals. Our employees are technically proficient, as well as highly adaptive to each client's corporate environment. Recruiting and hiring exceptional consultants is our number one priority.

DTS Framework

DTS focuses on a set of core competencies that serves as the foundation to create a "Power of Partnership" with our clients – a unified process to achieve the same goals; providing a solid framework of quality solutions and services with a set of core values, implemented in a timely manner.
